NK WOODWORKING & DESIGN

Lotus Bath Collection

My time at the show was winding down, and, frankly, I was making my way out of the Orange County Convention Center when I was stopped in my tracks. A gorgeous bathtub, part of the Lotus Bath Collection by NK Woodworking & Design, was like nothing I had seen before.

These bathtubs are handcrafted from sustainable hardwoods and finished with a specialized clear composite barrier. The look is simply amazing. Functional works of art, the bathtubs were designed by Nathie Katzoff of NK Woodworking & Design, fabricated at NK's shop in Seattle, Washington and can be shipped anywhere.
